**MELA NM&**

Design by Matti Klenell

## Unique design expression - obvious function

In conjunction with the renovation of the National Museum in Stockholm, a number of designers were given the opportunity to create a new inspiring public space, with an interior based solely on new design. A total of 80 new objects were created, including Mela, designed by Matti Klenell, which is now being put into production.

Mela is a family of luminaires consisting of a wall luminaire in two designs and a pendant luminaire in three sizes. Mela's task is to provide the room with both general light, directional light and more informal functional lighting.

● **Redbrown**  
RAL8017

● **Black**  
RAL 9005

● **Light grey**  
RAL 7035

## Technical specifications

<b>Material</b>	Shade and ceiling cup in spun aluminium. Rod in partly recycled steel.
<b>Installation</b>	Suspended in hook and wire suspension.
<b>Connection</b>	Supplied with 3 m textile cable 2G0,75 mm <sup>2</sup> in similar colour as shade and ceiling cup. Ceiling cup with terminal block 3x2,5mm <sup>2</sup> . Ceiling plug is not included, but can be ordered separately if needed.
<b>Reflector</b>	The shade's inside is finished in a crisp white lacquer, enhancing light distribution to create a bright, even glow with a high efficiency.
<b>Light source</b>	For 230V LED light sources, a mix of GU10 and E27 socket in the different shades. Light sources with color temperature 2700K are included in the delivery. 3000K can be supplied on request.
